BMW X6M, BOGDAN, 40 Y.O.,
ROMANIA

It is the **most famous** car in Romania. I'm **enjoying** every moment with this car. Every day, every minute. I am very **pleased** with the Lartekit, the car has started to take a very nice shape and **stands out** a lot! I love it when people on the street take pictures of the car! I am very glad that was the **first in Romania** to put the Larte kit on the BMW X6M.

For me, tuning means **individuality**, self-approval. There is no place for the gray mass, it is not for me. Of course, I did it only for myself, but with an obvious note that it will be **noticed** by all around. My X6M **identifies** my rich inner world.
